SECURITY and MANAGEMENT CONTROL OUTSOURCING STANDARD for CHANNELERS

The goal of this document is to provide adequate security and integrity for criminal history record information (CHRI) while under the control or management of an outsourced third party, the Contractor. Adequate security is defined in Office of Management and Budget Circular A-130 as “security commensurate with the risk and magnitude of harm resulting from the loss, misuse, or unauthorized access to or modification of information.”

The intent of this Security and Management Control Outsourcing Standard (Outsourcing Standard) is to require that the Contractor maintain a security program consistent with federal and state laws, regulations, and standards (including the FBI Criminal Justice Information Services (CJIS) Security Policy) as well as with rules, procedures, and standards established by the Compact Council and the United States Attorney General.

This Outsourcing Standard identifies the duties and responsibilities with respect to adequate internal controls within the contractual relationship so that the security and integrity of the Interstate Identification Index (III) System and CHRI are not compromised. The standard security program shall include consideration of site security, dissemination restrictions, personnel security, system security, and data security.

The provisions of this Outsourcing Standard are established by the Compact Council pursuant to 28 CFR Part 906 and are subject to the scope of that rule. They apply to all personnel, systems, networks, and facilities supporting and/or acting on behalf of the Authorized Recipient to perform noncriminal justice administrative functions requiring access to CHRI with a direct connection to the FBI CJIS Wide Area Network (WAN).

1.0 Definitions

- 1.01 *Access to CHRI* means to view or make use of CHRI obtained from the III System but excludes direct access to the III System by computer terminal or other automated means by Contractors other than those that may be contracted by the FBI or state criminal history record repositories or as provided by Title 34, United States Code (U.S.C.), Section 40314 (b), (formally cited as 42 U.S.C. § 14614(b)).
- 1.02 *Authorized Recipient* means (1) a nongovernmental entity authorized by federal statute or federal executive order to receive CHRI for noncriminal justice purposes, or (2) a government agency authorized by federal statute, federal executive order, or state statute which has been approved by the United States Attorney General to receive CHRI for noncriminal justice purposes.

- 1.03 *Authorized Recipient's Information Security Officer* means the individual who shall ensure technical compliance with all applicable elements of this Outsourcing Standard.
- 1.04 *Chief Administrator* means the primary administrator of a Nonparty State's criminal history record repository or a designee of such administrator who is a regular full-time employee of the repository, which is also referred to as the State Identification Bureau (SIB) Chief.
- 1.05 *CHRI*, as referred to in Article I(4) of the Compact, means information collected by criminal justice agencies on individuals consisting of identifiable descriptions and notations of arrests, detentions, indictments, or other formal criminal charges, and any disposition arising therefrom, including acquittal, sentencing, correctional supervision, or release; but does not include identification information such as fingerprint records if such information does not indicate involvement of the individual with the criminal justice system.
- 1.06 *Criminal History Record Check*, for purposes of this Outsourcing Standard only, means an authorized noncriminal justice fingerprint-based search of a state criminal history record repository and/or the FBI system.
- 1.07 *CJIS Systems Agency*, as provided in Section 1.4 of the FBI Criminal Justice Information Services (CJIS) Division's Advisory Policy Board Bylaws, means a criminal justice agency which has overall responsibility for the administration and usage of CJIS Division Programs within a state, district, territory, or foreign country. This includes any federal agency that meets the definition and provides services to other federal agencies and/or whose users reside in multiple states or territories.
- 1.08 *CJIS Systems Officer*, as provided in Section 1.5 of the CJIS Advisory Policy Board Bylaws, means the individual employed by the CJIS Systems Agency who is responsible for monitoring system use, enforcing system discipline and security, and assuring that CJIS operating procedures are followed by all users as well as other related duties outlined by the user agreements with the FBI's CJIS Division. (This title was formerly referred to as the Control Terminal Officer or the Federal Service Coordinator).
- 1.09 *Compact Officer*, as provided in Article I(2) of the Compact, means (A) with respect to the Federal Government, an official [FBI Compact Officer] so designated by the Director of the FBI [to administer and enforce the compact among federal agencies], or (B) with respect to a Party State, the chief administrator of the State's criminal history record repository or a designee of the chief administrator who is a regular full-time employee of the repository.
- 1.10 *Contractor* means a government agency, a private business, non-profit organization or individual, that is not itself an Authorized Recipient with respect to the particular noncriminal justice purpose, who has entered into a contract with an Authorized Recipient to perform channeler functions

requiring access to CHRI. Under this Outsourcing Standard, a Contractor serves as a Channeler and has direct connectivity to the CJIS Wide Area Network (WAN) for the purpose of electronic submission of fingerprints to and the receipt of CHRI from the FBI on behalf of an Authorized Recipient.

- 1.11 *Contractor's Security Officer* means the individual accountable for the management of the Contractor's security program.
- 1.12 *Dissemination* means the disclosure of III CHRI by an Authorized Recipient to an authorized Contractor, or by the Contractor to another Authorized Recipient consistent with the Contractor's responsibilities and with limitations imposed by federal and state laws, regulations, and standards as well as rules, procedures, and standards established by the Compact Council and the United States Attorney General.
- 1.13 *Identity History Summary* (IdHS), for the purposes of this Outsourcing Standard, means the report of all identification, demographic, and event information (criminal and/or civil) within a Next Generation Identification (NGI) Identity record which may be disseminated to an Authorized Recipient contingent upon legislation and federal regulations. The IdHS contains the criminal justice information associated with criminal fingerprints (i.e. "rap sheets") and/or noncriminal justice information associated with civil fingerprints, therefore the existence of an IdHS alone does not reflect criminal history events on that NGI Identity. This term is unique to NGI and is not intended to affect other agencies' use of the term "rap sheet" to describe reports of information in their identification repositories.
- 1.14 *Noncriminal Justice Administrative Functions* means the routine noncriminal justice administrative functions relating to the processing of CHRI, to include but not limited to the following:
 - 1. Making fitness determinations/recommendations
 - 2. Obtaining missing dispositions
 - 3. Disseminating CHRI as authorized by Federal statute, Federal Executive Order, or State statute approved by the United States Attorney General
 - 4. Other authorized activities relating to the general handling, use, and storage of CHRI
- 1.15 *Noncriminal Justice Purposes*, as provided in Article I(18) of the Compact, means uses of criminal history records for purposes authorized by federal or state law other than purposes relating to criminal justice activities, including employment suitability, licensing determinations, immigration and naturalization matters, and national security clearances.
- 1.16 *Outsourcing Standard* means a document approved by the Compact Council after consultation with the United States Attorney General which is to be incorporated by reference into a contract between an Authorized Recipient and a Contractor. This Outsourcing Standard authorizes access

to CHRI for noncriminal justice purposes, limits the use of the information to the purposes for which it is provided, prohibits retention and/or dissemination except as specifically authorized, ensures the security and confidentiality of the information, provides for audits and sanctions, provides conditions for termination of the contract, and contains such other provisions as the Compact Council may require.

- 1.17 *Personally Identifiable Information (PII)* means information which can be used to distinguish or trace an individual's identity, such as name, social security number, or biometric records, alone or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, or mother's maiden name.
- 1.18 *Physically Secure Location* means a facility or an area, a room, or a group of rooms, within a facility with both the physical and personnel security controls sufficient to protect CHRI and associated information systems.
- 1.19 *PII Breach* means the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access or any similar term referring to situations where persons other than the authorized users, and for other than authorized purposes, have access or potential access to PII, whether physical or electronic.
- 1.20 *Positive Identification*, as provided in Article I(20) of the Compact, means a determination, based upon a comparison of fingerprints¹ or other equally reliable biometric identification techniques, that the subject of a record search is the same person as the subject of a criminal history record or records indexed in the III System. Identifications based solely upon a comparison of subjects' names or other non-unique identification characteristics or numbers, or combinations thereof, shall not constitute positive identification.
- 1.21 *Public Carrier Network* means a telecommunications infrastructure consisting of network components that are not owned, operated, and managed solely by the agency using that network, i.e., any telecommunications infrastructure which supports public users other than those of the agency using that network. Examples of a public carrier network include but are not limited to the following: Dial-up and Internet connections, network connections to Verizon, network connections to AT&T, ATM Frame Relay clouds, wireless networks, wireless links, and cellular telephones. A public carrier network provides network services to the public; not just to the single agency using that network.

¹ The Compact Council currently defines positive identification for noncriminal justice purposes as identification based upon a qualifying ten-rolled or qualifying ten-flat fingerprint submission. Further information concerning positive identification may be obtained from the FBI Compact Council office.

- 1.22 *Rap Back Messaging Service (RBMS)* means the electronic transmission of transactions, messages, and unsolicited responses, where applicable, to and from the FBI for the immediate forwarding to the Authorized Recipient.
- 1.23 *Security Violation* means the failure to prevent or failure to institute safeguards to prevent access, use, retention, or dissemination of CHRI in violation of: (A) Federal or state law, regulation, or Executive Order; or (B) a rule, procedure, or standard established by the Compact Council and the United States Attorney General.

2.0 *Responsibilities of the Authorized Recipient*

- 2.01 Prior to engaging in outsourcing any noncriminal justice administrative functions, the Authorized Recipient shall: (a) Request and receive written permission from (1) the State Compact Officer/Chief Administrator² or (2) the FBI Compact Officer³; and (b) provide the State Compact Officer/Chief Administrator or the FBI Compact Officer copies of the specific authority for the outsourced work, criminal history record check requirements, and/or a copy of relevant portions of the contract as requested.

²The Compact Officer/Chief Administrator may not grant such permission unless he/she has implemented a combined state/federal audit program to, at a minimum, triennially audit a representative sample of the Contractors and Authorized Recipients engaging in outsourcing with the first of such audits to be conducted within one year of the date the Contractor first receives CHRI under the approved outsourcing agreement. A representative sample will be based on generally accepted statistical sampling methods.

 - f. The Authorized Recipient and/or Contractor shall make available to the State Compact Officer/Chief Administrator or the FBI Compact Officer the relevant portions of the current and approved contract relating to CHRI, upon request.
- 2.04 The Authorized Recipient shall understand the communications and record capabilities of the Contractor which has access to federal or state records through, or because of, its outsourcing relationship with the Authorized Recipient. The FBI shall, and the Authorized Recipient may, maintain an updated topological drawing which depicts the interconnectivity of a Contractor's network configuration.
- 2.05 The Authorized Recipient is responsible for the actions of the Contractor and shall monitor the Contractor's compliance to the terms and conditions of the Outsourcing Standard. The FBI shall certify to the FBI Compact

Officer that an audit was conducted with the Contractor within 90 days of the date the Contractor first receives CHRI under the approved outsourcing agreement.

- 2.06 The Authorized Recipient shall provide written notice of any early voluntary termination of the contract to the Compact Officer/Chief Administrator or the FBI Compact Officer.
